

NOTICE

concerning

THE AMENDMENT OF THE SPECIFICATIONS

for

Selection of investors to establish an IPP (Independent Power Producer) joint-stock company required in order to develop a “Green/Brown Field” project for the implementation of a “400 MW combined-cycle condensation power unit operating on natural gas”

Interested investors who have purchased the Specifications for the selection of investors to establish an IPP (Independent Power Producer) joint-stock company required in order to develop a “Green/Brown Field” project for the implementation of a “400 MW combined-cycle condensation power unit operating on natural gas” (“the Specifications”) are informed that, further to the requests for clarification filed by some of the interested investors, a series of amendments have occurred concerning the content of the Specifications.

Such amendments shall be communicated to the interested investors who have purchased the Specifications, according to the provisions of Section VII in the Specifications, by fax/e-mail to the numbers/addresses indicated by each investor upon procurement of the Specifications (or subsequently communicated).

The fact that such amendments have occurred will be brought to the knowledge of the interested parties by means of publication on the web page where the publicity for the sale of the Specifications was done, i.e.: www.cenhd.ro.
